LOI THERMPROCESS

**YOUR WORLD
OF FURNACE
TECHNOLOGY**

LOI Thermprocess GmbH | Human Resources | Schifferstrasse 80 | 47059 Duisburg | T 0203 80398-955 | Bewerbungen@tenova.com

LOI Thermprocess GmbH is the internationally leading company for both heat treatments plants for steel and aluminium and secondary metallurgical plants. With more than 2,200 employees, Tenova, our parent company and a business unit of the Techint Group, ranges among the world's international, technologically leading providers of plants, products and services for the metal and mining industry.

Tenova LOI Thermprocess is a driver in the transformation of the metals industry towards decarbonisation. With our high technical solutions, we support our customers to continuously adapt to the changing environmental requirements. We are already actively contributing to climate protection with our vision of a sustainable steel industry and our focus on agile development and implementation of combustion technologies without fossil fuels, especially hydrogen, and the expansion of electrical heating capabilities in our plants. **Green Ways to Metals** – this is what we stand for.

We welcome newly graduates and highly motivated people who enjoy shaping the future actively and being part of this continuous process of change and transformation within the metals industry with an innovative mindset and up-to-date knowledge.

To strengthen our Project Management we are looking for a

PROJECT MANAGER (m/f/d)

Immediately, permanent and full-time, located in Duisburg, Germany

Responsibilities:

- Planning, organizing and developing projects from contract start to execution/commissioning of the plant, in consideration of contract and claim management
- Responsible for monitoring the compliance of approved planning data (costs, deadlines, quality) and initiating necessary corrective measures in the event of deviations
- Monthly reporting of project progress to key stakeholders within international context
- Managing multicultural project teams in an agile way to implement the defined project objectives
- Evaluation and assessment of projects results for future improvements

Skills required:

- Bachelor/master degree with focus on engineering or comparable degree in the natural sciences
- Candidates with professional experience in Project Management
- Good English and German skills
- Creative, innovative and agile mindset
- High performance orientation and decision-making ability
- Good knowledge in the preparation of cost estimates and project schedules in plant engineering
- Good user skills in SAP, MS-Project and common MS Office tools
- Willingness to travel

We offer:

In addition to exciting and diverse fields of activity, we offer motivational onboarding and intensive training on the job in an international team. The mix of mobile office, office and flexitime offers more flexibility in everyday life. Latest technology and a modern ambience enable agile and digital working in our modern office in a central and attractive location in Duisburg's inner harbour. Our large open space area invites you to a daily get-together with colleagues.

**You would like to become part of the transformation process in metals industry?
Then we are looking forward to your application!**
